EXPERIENCE

Orchestra New York, NY

Growth Operations Associate September 2026 – Present

- Proposed an ABM signal monitoring approach across multiple verticals, leading to the design of a multi-alert notification architecture to inform account prioritization and business development outreach across industry vertical target accounts
- Develop account research and targeting recommendations to connect ABM signals with relevant prospects and outreach opportunities
- Project managed Orchestra's Answer Engine Optimization (AEO) initiative, translating the strategy into coordinated prompt generation workstreams to strengthen visibility in AI-powered search and support new business opportunities

Marketing Operations Associate May 2025 – August 2026

- Recommended and led a redesign of HubSpot architecture, defining lifecycle stages, lead routing, campaign taxonomy, and attribution standards to improve lead management and pipeline visibility
- Proposed and established a marketing measurement framework across five agencies and 20+ active campaigns, connecting HubSpot and web analytics data to guide performance assessment and marketing priorities
- Designed lifecycle automation and lead management workflows to clarify ownership, improve inbound response times, and reduce manual handoffs between marketing and business development
- Established cross-functional project intake and prioritization processes to clarify ownership, surface competing requests, and inform resource allocation
- Managed the consolidation of nine agencies' websites into a shared Webflow environment, surfacing critical business requirements and integration issues to inform stakeholder decisions on migration and CMS governance

Broadridge New York, NY

Digital Marketing Consultant May 2024 – May 2025

- Implemented lifecycle marketing programs in HubSpot to support advisor and broker-dealer engagement initiatives across multiple product lines
- Collaborated with marketing, product, and sales stakeholders to create campaign strategies, operational workflows, and enablement materials that align with business growth objectives
- Utilized market research, competitive intelligence and performance data to influence campaign positioning, messaging strategy and content creation
- Developed and maintained campaign reporting processes to assess engagement trends and guide continuous optimization initiatives
- Assisted in building a centralized sales and marketing enablement library, improving the accessibility and consistency of client-facing resources across teams

BlocPower New York, NY

Digital Marketing Specialist August 2022 – May 2024

- Built and ran outbound demand generation campaigns for multifamily property leads that exceeded industry engagement benchmarks
- Developed audience segmentation strategies, prospecting workflows and email nurture campaigns to drive expansion into priority markets and accelerate pipeline generation
- Managed campaign execution via email, CRM, and digital channels in partnership with cross-functional teams to drive growth initiatives
- Reviewed campaign performance data to find optimization opportunities and improve targeting, messaging, and conversion results
- Supported marketing operations and lead management processes to increase visibility into campaign performance and pipeline contribution
